

Healthy Parks Healthy People

February 25, 2023

Hello park supporters,

Thank you for your interest in the Briones Pilot Project, a two-year program intended to test a variety of trail management and resource protection techniques in the eastern 1/3 of Briones Regional Park. We expect to launch the program in mid-April.

If you are not already aware, the Park District is hosting an in-person [community meeting](#) from 10am – noon on Saturday, February 25 at the Alhambra Staging Area. Feedback provided during this meeting will help Park District staff determine which trails to include in the Pilot Project. **If interested, please RSVP directly here:** <https://www.ebparks.org/form/briones-open-house>

We will provide project updates to the interest list as well as post to the [project webpage](#) as they develop. Thank you for your interest and for supporting your Regional Parks!

-Eddie Willis, Planner
